**Abstract:** Technology tools are seen as ways to help student improve language skills such as speaking skills. Internet, podcast, video conferencing is the best tool to teach speaking skills. Speaking is one of the skills that students need to acquire when learning English. Speech is an important means of communication. Additionally, this article is about ways of speaking skill with technology.

**Keywords:** Speaking skill, ICT, interactive process, enhance speaking, EAL, educational, modern technology, ESL.

The ability to speak confidently and fluently is something that children develop while in school and will help them throughout their life. In primary and secondary schools, children learn English speaking skills as well as to speak other languages. Learning how to develop speaking skills in English is also very important for ESL students and EAL students. One of the most important parts of languages learning is how we communicate in our daily life.

Mastering any skill, including communication skills comes down to practice. By practicing speaking you can learn from mistakes and build both your vocabulary and understanding. Practicing speaking is one of the most fun and rewarding parts of learning English. Once you can speak even a little English, there are loads of ways to improve your skills quickly while having tons of fun. English is in the most widely studied languages in the world - about 20% of the world is spoken in English. Knowing how to speak English can open up new life opportunities from easy travel to communicating with more people and even finding a good job. It also means that you can study for higher education in the most prestigious educational institutions in the world, including free online programs at People's University! Speaking is "the process of building and sharing meaning through the use of verbal and non-verbal symbols in a variety of context" Despite of its importance, for many years, teaching speaking has been undervalued and English languages teacher have continued to teach speaking just as a repetition of drills or memorization of dialogues. Speaking is a basic language skill. This is the main way we share information. When we are asked how well we can do a second language we ask the question "How well do speak ...?" So, it is a good speaking ability that best expresses our knowledge of other languages. Improving speaking skills paying more attention to the quality of technological tools at basic levels, devoting enough time to students speech and phonetic exercises, providing a friendly environment rather than speaking develop courage and confidence in students to ask questions of teacher.

- Speaking is a crucial part of second language learning and teaching
- The mastery of speaking skills in English is a priority for many second language or foreign language learners.
- Our learners often evaluate their success in language learning as well as the effectiveness of their English course on the basic of how much they feel have improved in their spoken language's proficiency.
- Oral skills have hardly been neglected in today's EFL\ESL courses.

A speaker's skills and speech habits have an impact on the success of any exchange. Speakers must be able to anticipate and then produce the expected patterns of specific discourse situations. They must also manage discrete elements such as turn-taking, rephrasing, providing feedback or redirecting. Many students master the fine points of English grammar but find themselves at a loss when it comes to actually having a conversation with native speakers. In
