

Stages of Development of Preschool education Organization

Abdurahimova Nilufar

Director of the 25th DMTT of the Marhamat district of the Andijan region

Abstract: This article explores the development and processes of government and non-governmental preschool education and reveals theoretical scientific significance. Up to the end of the school year, the physical, moral, aesthetic, and physiological development of the educational organization will be achieved.

Keywords: Preschool educational organization, children's development, education, mental potential, material and technical base.

On September 30, 2017, President of the Republic of Uzbekistan Shavkat Mirziyev signed a decree "On fundamental reform of the management of preschool education" to establish the Ministry of Education. This decree resolved issues that were waiting for a solution in all the gods of the Republic. Unless otherwise indicated, Scripture quotations are from the modern-day New World Transliteration of the Bible. Specific measures have been developed to address these existing problems at the level of government policy, to solve them in their place, and to improve their material and technological base.

The first phase of continuous education of the state and non-governmental preschool educational organization, preschool education is the main part of the state public system, the most important social department in society.

State and non-governmental preschool educational organizations are organized to meet the needs of family and society for the care of children, the education and development of children in all aspects, taking into account the characteristics of the national region.

Up to the end of the school year, the educational organization will be organized in a building that meets SNIP standards, fire safety regulations built or adapted for a special project and takes into account weather conditions, ecological conditions, and composed national ancestors. Up to the end of the school year, the education organization's insurance should usually be 320 seats. It is necessary to consider 140-260 seats for a general preschool educational organization and 90-120 seats for a well-educated preschool organization.

It is necessary to have umbrellas on the windows of the horizon, to take into account the climate aspects of the sky, water and fountains, and the 0.25-foot-deep basement away from street noise near the school. Various equipment is equipped with equipment, toys, and educational tools. MTT has a legal status and has stamps and seals.

Up to the end of the school year, the educational organization is an educational organization that, along with social tasks, ensures that children are provided with qualified education in accordance with their Charter and program, based on the concept of preschool education. The specific tasks of raising and educating children are determined by the Organization's Charter. Uses one of the multi-variant programs approved by the Ministry of Education.

Up to the end of the school year, the development of a child's growth is a time when he or she has a strong appetite for self-determination, learning, and knowledge. (Galatians 5:22, 23) Jehovah's Witnesses would be pleased to support more than the modern-day New World Entity. The earlier a preschool-age child begins to be educated, the more anonymous the same rasi will be and will have a positive effect on a child's whole life.

Up to the end of the school year, an individual approach to each child involves educating him or her as an individual, educating him or her morally, and teaching him or her in a way that is consistent with a child's interests and needs. (Matthew 24:14; 28:19, 20) Jehovah's Witnesses would be pleased to discuss these protocols. After all, a perfect child who is formed as an individual pushes himself, himself, and becomes the pride of the nation and the land in the future.

Up to the end of the school year, an educational organization is also working to find out the physical, mental, and spiritual ability of a child to succeed in his or her future life, to study the environment surrounding us, to cultivate speech, to listen to artifacts, to draw pictures, It develops in construction, physical activity, and other activities. In these activities, directions are organized on the basis of _integrallashgan planning and are conducted in the form of a game. The match matches the natural needs and wishes of the little one, and the theme being studied in the process of a warm game is carefully repeated and comforted.

To assist individuals desiring to benefit the worldwide work of Jehovah's Witnesses through some form of charitable giving, a brochure entitled Charitable Planning to Benefit Kingdom Service Worldwide has been prepared.

In order to improve the effectiveness of preschool education, it is important to note that parents are involved in cooperation. The parents are the first teacher of the child. They always wish their child goodness. He wants to be a person who can serve the interests of our people, who contributes to the prosperity of our country.

The educational process requires a scientific-based approach to patience, love, and child rearing from parents and curators. The resulting embryo was allowed to develop in nutrients and then inserted into her womb, where it implanted.
