Introduction

Globalization and internationalization have entered history as critical influential processes of the century. Internationalization is changing the world of higher education, and globalization is changing the world of internationalization. In the next 25years, the internationalization process has evolved from as small marginal level to a global scale and has become the main strategy and dominant trend in higher education. At present, this strategy contributes to the further integration of higher education of the countries into the world higher education area and the development under the influence of this process. The process of internationalization in higher education has covered the nation soft the world on a global scale. The internationalization of higher education has different characteristics in many countries around the world. Particularly in the Republic of Uzbekistan, it is crucial. The internationalization of higher education in the Republic of Uzbekistan has received more attention after independence. After gaining independence, the Republic of Uzbekistan, like other countries of the world, began to pursue a comprehensive development. In the development of a particular state, literacy of the population play important role. Taking into account, the Republic of Uzbekistan began to carry out serious reforms in three educational system in increasing the literacy of the population. In the frame work of such reforms, the internationalization of higher education in Uzbekistan reflects in such as pects studying abroad, development of international relations, wide application of international standards into the higher education system, development of integration in higher education. The main goal of the State educational policy is to educate a healthy generation, both physically and mentally. The new educational policy is determined by the following main principal sand goals:

- *Achieving a humanistic and democratic character of education and training;
- *Priority to human values and to national and cultural traditions;
- *Separation of educational institutions from the influence of political parties and movements;
- *Scientific and secular character of the State education system;
- *Continuity of the education system;
- *Development of vocational and professional education in accordance with changing economic needs;
- *Provision of compulsory general (basic) education, technical and vocational secondary education;

- *Free choice of the type of specialized secondary education (academic lyceums and vocational colleges);
- *Universal provision of compulsory education with in the frame work of State educational standards;
- *Unity and differentiation of training programmes;
- *Free choice of educational programmes based on merit and ability, and incentives to intelligence and talent.

The Uzbekistan Academy of Sciences is the leading institution all types of research. Only to graduate studies can be conducted with in the Academy. Universities and institutes are both research and educational institutions. Universities are educational institutions responsible for the preparation of skilled professors and teachers, as well as academic staff and researchers in a variety of disciplines. Institutes are responsible for the preparation of various specialists. Many scholars have contributed to the development of the notion of internationalization of higher education. Scientific works of such scholars have helped to stand better the internationalization of higher education. In particular, the studies have been the main source for understanding the rationales of the internationalization of higher education.

Conclusion,

The internationalization of higher education is becoming increasingly important in the international arena. The internationalization of higher education contributes to the development of higher education in the Republic of Uzbekistan. This will ensure that Uzbek universities are competitive with universities around the world. He introduced a new methodology to the content of higher education in Uzbekistan. The internationalization of higher education will ensure that higher education in Uzbekistan meets international standards. This will lead to the international recognition and international status of Uzbek higher education institutions. This will ensure that the professors and teachers of higher education institutions of the Republic of Uzbekistan will gain an academic reputation in the world of science. Internationalization of higher education will be a key tool in transforming the higher education system of Uzbekistan into an educational center that implements international educational programs.
