

# The governor is a woman who lives with the pain of the people

**Dilafroz Hasanova,**

Chairman of the Kattakurgan City Council of the Social Democratic Party of Uzbekistan "Adolat",  
Deputy of the City Council of People's Deputies

**Annotation:** In this article we talk about woman who cares about people and also the fact that today the chairman of the Senate of the Oliy Majlis of the Republic of Uzbekistan is a woman, women make up 35% of the Legislative Chamber of the Oliy Majlis of the Republic of Uzbekistan, 8 courageous women in district and city khokimiyats.

**Keywords:** Pain, people, respect, women.

Since the creation of humanity, the development of the cultural level of society, its spiritual perfection is assessed in terms of its attitude towards women. Of course, respect for women was a characteristic of our people. There are many women who, using such respect and opportunities wisely, are able to express themselves in any aspect of society and develop the industry.

Today we can see the activism of women in all directions. Whether it is scientific activity, entrepreneurship, politics, sports, culture, civil engineering, driving, it is clear that women in various fields deserve such recognition.

For example, the fact that today the chairman of the Senate of the Oliy Majlis of the Republic of Uzbekistan is a woman, women make up 35% of the Legislative Chamber of the Oliy Majlis of the Republic of Uzbekistan, 8 courageous women in district and city khokimiyats.

Although it has not been long since Gavhar Alimova, the courageous mayor of Kattakurgan, started her career in our city of Kattakurgan, radical changes and consistent reforms in the interests of the people are taking place in the city. Such changes raise a sense of confidence as well as a sense of responsibility for a brighter future in the hearts of the great fortresses.

From the very beginning of her career, Gavhar Alimova said that the most important task is to please the people, to find a way to their hearts, to work with the people of Tanta and the open-hearted to make the ancient and great city of Kattakurgan a prosperous and prosperous place.

Initially, he began by exploring the problems the residents were thinking about, meeting face-to-face with residents and visiting homes. In the house where people in need of social protection, people with disabilities, sick people are always visiting. He paid special attention to the problems of women and youth

He has also worked with the head of the People's Reception and officials to resolve the appeals of individuals and legal entities to the People's Reception of the President of the Republic of Uzbekistan in Kattakurgan.

The most gratifying thing is that in 2020, the Cabinet of Ministers approved a special program for socio-economic development of Kattakurgan. Drinking water, road problems, problems with apartment buildings, which have plagued the population in some areas for years, are endless, and the problems that have accumulated over the years, thankfully, are being solved one by one.

It is difficult to find the governor's office 24 hours a day, even if it is 24 hours a day to study the problems of the population, to find solutions to the problems that are waiting to be solved on the ground. As a result of the efforts, the studies are not left in place, they show the results of the work being done, and the people of Kattakurgan are satisfied with this and open their hands in prayer, big or small.

Recently, in order to support vulnerable groups in the city, a wide range of advocacy work was carried out in collaboration with generous entrepreneurs under the motto "Assistance to needy and needy families is both a duty and an obligation."

They are at the forefront of encouraging people to lead a healthy lifestyle, and every day of the week, under the specific motto, the secrets of health, healthy living are promoted. If one day starts with a walk in the

early morning, the next day there is an extensive promotion of healthy eating. I think it is appropriate to emphasize that no cases of early marriage and premature births among underage girls were recorded during the 6 months of 2020 and 2021.

In order to encourage young people to fully express their talents, a governor's scholarship has been introduced to encourage active youth. Gavhar Alimova, a Kattakurgan resident who has been ruling the city for only a year, has been working hard to establish a Kattakurgan branch of Samarkand State University. As you know, the Kattakurgan branch of Samarkand State University was established by the relevant decision of the government (No. 307, 18.05.2021).

Efficient use of neglected lands and expansion of entrepreneurship have intensified in the most remote area - Ingichka Fortress. Neighborhoods have been transformed into prosperous and beautiful neighborhoods, the material and technical base has been strengthened. As a result of consistent measures to comprehensively improve the socio-economic development of the region, radically improve the living conditions of the population, achieve significant positive changes in living standards, Kattakurgan gem - Gavhar Alimova won the Republican competition in the nominations "Best Sector Leader" and "Prosperous and Safe Neighborhood" . At the same time, as an active member of the SDP "Adolat", he was awarded the badge "Adolat" of the Political Council of the SDP "Adolat" of Uzbekistan, taking into account his initiatives to increase the prestige of our party, taking into account the current proposals.

At the heart of this, of course, lies the tireless work of our courageous governor, who lives with the pain of the people. The reforms carried out under the leadership of Gavhar Alimova for the benefit of the people of Kattakurgan.
